CITIES IN MINNATURE - - Remarkable small-scale models of famous American towns specially constructed for exhibition at the Chicago World's Fair.

-New York-

---

Picture:-

It looks like a bird's-eye view of a city doesn't it ? Yet,--

--it is just an ordinary view of a model of Baltimore City.

These wonderful miniatures are made for exhibition at the World Fair--

when it opens in Chicago. The work is done by--

--model-makers who devise all these weird, unbelievable, prehistoric animals and odd things--

--for imaginative films. Looks like a new sort of Gulliver's Travels dream all complete--

--with a shirt-sleeved Gulliver. Careful with that monument, you big brute !

Well, it's one way for America to clean up her cities and brush away all the dirt spots they don't like.

A first-class newspaper attack wouldn't make a capital and congress feel--

--smaller than that. After all the senate house doesn't carry much weight. Some people would like to do that with our Houses of Parliament, but would they put them back again as gently ?
