RAILWAY DISASTER - - Five people lost their lives and a number were injured in London's worst rail coach smash for many years.

-Raynes Park-

Picture.:-

In the unfortunate accident at Raynes Park, five people--

--were killed and ten were seriously injured. One was a colonel of brave--

--record, who, after surviving the slow progress--

--of two wars fell a victim to the speed--

--of peace-time. However sad, such an occurrence undoubtedly is,--

--let us remember that it is the only serious--

--accident on this line for six years. Deaths by--

--road accidents are so numerous as to be ^{more} commonplace. Disasters of--

--this kind are so rare that they seem sensational.

Railroad Travel in Britain is still safer than in any other country in the world.
