"HEALTH AND BEAUTY" IN ITALY - - 10,000

girls and youths celebrate opening of new "Marble Stadium"
with massed athletic display before Signor Mussolini.

-Rome-

Picture.:-

The vast new marble stadium at Rome starts its
career as a sports--

--arena. Signor Mussolini greets ten thousand--

--athletes of both sexes. Under the dictator's lead--

--and influence, Italian youth is abandoning the dreamy
exotic long-haired tradition and developing into brisk
stalwarts with quick--

--moving muscles and minds - - keen eyed and clean limbed.
There's--

--hardly a young man or woman in Italy who doesn't take
an interest--

--in physical culture, and that's nothing to do with
the interest they once had--

--in biceps to turn the handles of--

--barrel organs. Mussolini has not only changed the
government of--

--the people, but also stimulated their entire outlook
and ambitions.
