"HIGHER" EDUCATION - - American Military  
College introduces novel instruction in "balance and  
equilibrium" for cadets.

-Wayne.U.S.A.-

---

Picture.:

Someone very clever has discovered a new way--

--to make upright soldiers. If the cadets don't keep  
upright, they just fall down off their tall stilts.  
Those who keep--

--their balance have got high-fallutin' ideas and  
are constantly talking over the heads of their  
companions.

Ladies will note that the high waist has  
come back to fashion again - -

-- and that trousers are worn very long.

(EFFECTS)

I wonder, does the Peace Treaty allow--

--a 'standing' army as big as this ? It's an idea  
which has increased poise and laundry bills--

--by 50%. "Fall Out !"--

--says the Sergeant, and obedient to the word of  
command, they fall out !
