

SUMMER JOYS - -

Young London takes full

advantage of summer sunshine and seeks health and happiness
in the open.

-Hornsey-

Picture.

(EFFECTS).

Lots of Spring in the air this Summer !

This is an occasion when a commentator's job has
its compensations !

No ! The lady is not riding a bicycle in her
sleep ! It's an exercise--

--to promote harmony of bodily health. Order please !

Like many other civic bodies Hornsey is--

--doing splendid work in providing facilities of
this kind.

Rather wearing on the - - er - - shoot !

Breathing space and freedom in the heart of
a thickly populated district.

An open-air gymnasium, with not a little
talent - - Very good !

And if this pyramid of life and vitality
doesn't--

--hold more interest than those old stone
heaps in Egypt, I miss my guess !
