

PAGEANT OF YOUTH - Thousands witness  
spectacular athletic display by kiddies of their  
very own children's day at Roundhay Park. -Leeds-

---

Picture.:- On this day it is the--

--children's privilege to show grown-ups how to be--

--healthy, wealthy and wise. First of all the--

--Queen of Festival has to be crowned. Can't possibly have  
a Festival like this--

--without at least a Coronation as part of the program.

Another joyous gesture is the releasing--

--of over twelve-thousand toy balloons, all at one 'let-go'.  
Against the blue of the brilliant sky their varied colours--

--give an effect of gaiety which is difficult to describe.  
It's remarkably jolly anyway.

Children's Day is a movement with vision. An  
immensely practical method of preparing the youngsters  
of to-day to be the men and women of to-morrow.

The movement inculcates a wholesome--

--respect of the laws which govern clean and healthy  
development of mind and--

--body. Proof of its success is that to-day has  
attracted a greater--

--crowd of principals and audience than ever--

--before. These children are the real bright young  
people on which the responsibilities--

--of the future will eventually rest. It is good :  
"As the sapling is bent, so the tree inclines."
