**EN VITESSE** - - New French "scout" torpedo  
boat undergoes successful trials on the Meulan, near  
Paris.

**-France-**

---

Picture.:-

This fast little craft looks like an innocent  
speed motor-boat. It is--  
--the new French naval scout.  
Fitted with two torpedo tubes, it can travel at--  
--over 60 miles an hour and fire its--  
--torpedoes at speed. Two engines, each--  
--capable of developing one-thousand horse power are  
contained in its small--  
--65 feet of length. Torpedoes are discharged by--  
--compressed air. After one has been--  
--hurled towards its objective, the scout--  
--can immediately steer a flying zig-zag course to avoid  
becoming a target for the enemy's guns. A proper sea  
hornet! Once it has stung you, it is the very devil  
to catch!
