FLYING PANCAKE - - Successful flight of
new tailless plane "The Arup" at South Bend.

-Indiana.U.S.A.-

Picture:-

The designer of this plane is at least original.
He determined to make--

--something different and this is it ! Looks like--

--a huge bat ! But--

--there's nothing 'batty' about the inventor. Just
watch his machine perform !

(EFFECTS).

(EFFECTS).

Very safe ! Practically fool-proof ! Practically !
A child can use it. See small bills ! So small it
can be kept in the back-garden. Well, it can't do
any harm there, can it ?
