POETRY OF MOTION - - Girls of the Birmingham
Section of the Women's League of Health and Beauty give
graceful display at Wolverhampton.

-Staffordshire-

Picture.

This sort of thing is better to watch than to
talk about.

These are girls of the Birmingham section of
the Women's League of Health and Beauty, and very
healthy and beautiful they all look it

Thousands of spectators turn out to see this--

--attractive show. Made in Brumaggen used to mean
something not up to its exterior looks, whilst these
Birmingham girls would pass for Greek goddesses anywhere.
In fact, it's one of these occasions when the imitation
is better--

--than the real. (EFFECTS).

It's worth watching, isn't it ?

Most of these are ordinary--

--no - - exceptional - - young business women
building up health for future years. Yes,
sir, that's just what I think !

It builds bonny ladies - - sane and
sensible. A great movement.
