THE VOICE OF ISRAEL - - Over 50,000

Jews march to Hyde Park for great demonstration against anti-Jewish movement in Germany.

-London-

Picture.:- The processions of Jewish people from all parts of London converge on Hyde Park. In the chiefly Jewish quarters, like Whitechapel,--

--practically every shop is closed. The proprietors are--

--taking part in this huge demonstration. Its object is a mass--

--protest against the alleged regime of persecution of the Jews in--

--Germany. Crowds of sympathisers are--

--already in the Park waiting for the bodies of--

--marchers. It has been said that Hyde Park belongs--

--to the public in the day-time but to--

--private parties at night. But to-day,--

--it belongs to London's Jewry. Devout rabbis from various Shoals--

--are here. Platforms are backed with banners expressing in bold unequivocal language --

--what the Hebrews think of--

--Hitler. Although the--

--poorer classes predominate, as far as numbers,--

--there are many representing city men of considerable influence --

--supporting the demonstration. This lady is forceful and persuasive, and the--

--gent seems prepared to argue forcefully, too.

An orderly and impressive protest of a respected race.
