NEWPORT CARNIVAL - - The 1933 "festival
of fun" eclipses all previous efforts in aid of hospitals.

Monmouthshire-

Picture.:-

Over two miles of unadulterated joy. Newport's
Carnival Week is nearly as gay as the continental brand.

The Queen of Peace, Miss Dorothy Glazebrook, was
selected from--

--three hundred competitors by popular vote. The Empire
floats are very fine in conception.

A body of miners from the valleys !They're all
practically the same height and weight.

Lively, levely, lissen town school-children make
their elders wish they were young again.

The 'Golden Butterfly'. A winning float!
Very elaborate and artistic !

Carnival Week always attracts crowds of visitors
to the--

--town. Hello ! Some energetic souls have invented
a new original goose-step. If they're not well spaced,
somebody will get--

--well kicked. Symbolising Britain's sea history,
comes a beautiful replica of an old-time square-
rigged sailing ship. As usual, the proceeds of
this magnificent joyful effort go to the Hospitals.
Here's hoping that the treasure ~~store~~ ~~will~~ yield
much gold and silver to alleviate suffering.
