THEIR HOLIDAY - - Funds provided by
charitable public bring at least one happy day to the
kiddies of Tooting.

-London & Littlehampton-

Picture.:-

After the women come the children ! We love 'em--
--all, darn 'em ! We cuff them occasionally, but cuddle them--
--often. The people of Tooting show their public--
--spirit by gathering together a family of two-thousand, five
hundred--
--of their poorer kiddies and giving them a smell--
--of the sea-side. If it weren't for this kind thought,
these youngsters would say--
--good-bye to summer without a smell of anything but just
Tooting. A halt--
--for lunch. You can hear them enjoy their meal, although--
--their hearts and mouths are too full for speech.

Off Again ! The next stop, the sea-side ! A magic snip
of--

--the film editor's scissors, and we have arrived at Littlehampton.

The kiddies will cherish the glimpse of blue sea--

--and golden sand for months. Hats off to such dispensers
of happiness. It's worth-while work !
