Picture:-

Boys of the Chatham Naval Training Establishment give a display of physical exercises. The dream of these youngsters is to--

--become real rollicking sailors, and this is the way the--

--dream is made to come true. But there's--

--nothing dreamy about the training. It's 'slick' as dancers. On their toes--

--all the time ! The elasticity of youthful muscle is obvious in every movement. (PAUSE).

How we do like to watch other people working !

No slow marching here. At the double ! It's a--

--way they have in the Navy. These boys are all artificer apprentices, mostly--

--sons of sailor fathers. The new generation ! Seeking the 'Nelson touch'.
