HOT WORK - - Throughout the heat wave chorus girls and boys 'step lively' in preparation for cooler times.

-London-

Picture.:-

Not all of us can dress, or undress, like this for our work, however hot the weather is.

Despite sultry conditions, the preliminary work of the show girls has to be done. The show is due to open,--

--and the public, that's yourselves, must not be disappointed. The wonderful--

--summer is not so wonderful to everybody. Farmers and theatre managers--

--have been praying for rain. Cattle stalls and orchestra stalls are not so flourishing as they--

--might be. You ask the manager of this Theatre.

He will tell you, and not with music. Well, there's the bottom half working and--

--here's the top half resting. A lovely--

--break in a hard morning's dancing routine. Bow nicely to the ladies and gentlemen.

Phew ! The stage thermometer registers about eighty?
It is hot !

Ah ! A pretty little pedestal ornament for your flat !

Thank you, girls ! We have all enjoyed your display !
(CHORUS) We have ! Ssh ! We are not alone !
