"FEAST OF LANTERNS" - - At Amersham, 700
campers celebrate the passing of the most enjoyable camping-
season for many years.

-Buckinghamshire-

Picture.:-

All good things come to an end. ... Campers all
over the--
--country regret the ending of days and nights--
--in the open air. ... Weeks and months of sundays will
leave--
--many happy memories to help through the winter those who
"heard the call of the open". ... The Feast of Lanterns--
--is in the nature of "goodbye summer, come again soon!". ...
Over seven-hundred,--
--including many whole families, complete with babies, help
to make the last night of the camping season--
--of 1933 one to be remembered. ... It is blowing quite
a bit to-night, but they are blowed if they care! ...

Not for many years has it been possible for us to
really enjoy camping-out for a long spell at a time. ...
Well, here's to next year! Roll on Winter!
