TAKING CHANCES - - Major Ernst Udet,
renowned German aviator, thrills big crowds with amazing
stunts at International Air Meeting in Chicago.

-U.S.A.-

Picture.:-

One would think we had--

--seen the limit in sky-thrills,-- but watch Major Udet
"throw his plane about" as though life or plane were not
worth tuppence !! ... Of course, "a loop" is nothing,
but when it finishes as near the ground as that--

--IT IS SOMETHING !

Watch him pick up that handkerchief with his wing tip. ...
Done it !

(BRING UP PLANE EFFECT TO END OF THIS SHOT).

You must "look up"--

--to a man who will "loop the loop" with his engine 'dead'. ...
No wonder they call him Germany's super-airman ! ... The
chances this fellow takes ! ... A dare-devil if ever there
was one ! ... Now he's preparing for the really dangerous
part of his show - - a side-slip landing ! ... See !
Phew ! But he just floats down to terra firma, landing
in a way that would give a flying instructor heart failure !

(BRING UP CROWD AND APPLAUSE TO END OF SHOT)

(THEN NATURAL SOUND TO END OF STORY).
