"HOME TO ROOST" - - The big U.S. airship
Macon carries out remarkable test with pick-up device
designed to "gather in her chicks" in flight.

-Lakehurst-

Picture.:-

As the days pass, the inventive genius of --
--man grows greater. Here's America's airship "Macon" going
aloft for a--
--test of some wonderful new gear.

(EFFECTS - 7 SHOTS).

The 'look-out' spots a distant--
--'plane. It belongs to the Macon's--
--Squadron, and wants to be--
--picked up by this air-ship--
--aeroplane-carrier. Will the new gear--
--do it successfully ? (EFFECTS).

The 'plane is hooked. The next operation is to draw--
--the 'plane up into the body--
--of the ship. There it goes ! An aeroplane base and
repair shop in the skies. But what's it for ?
