"FELL" WORK INDEED - - Demolition of
famous steel-works at Newburn-on-Tyne
necessitates removal of a row of tall chimney
stacks - - and here's how.

-Northumberland-

Picture:-

Newcastle-on-Tyne district is to be stripped of--
--some famous land marks to-day. These out-of-date
chimney stacks have--

--to be felled. They spoil the view - - like an old-
fashioned--

--dress on a modern girl - - and must come down.

The nice-like men of progress nibble at the giant's--
--vital part, and get from under - - (EFFECTS). A great
effort ! Good 'fellers' these fellers ! But what a
dust !

Mr.Lowry, expert feller of chimneyso perfects his--
--strangle hold. Straight for the camera ! (EFFECTS)
Position exact ! But it's the last time that chimney
will smoke !
