SEA - GOING MOTOR CAR.

Picture.:- Who's for a charabanc sail ? Those who don't like to go down to the sea in ships'--

--can now go in this amphibious craft.

It takes shore and ocean in its stride.

The sea-road is rather rough to-day, but--

--there's no danger of a flat tyre anyway. The driver is turning round.

Maybe he's not feeling too well ! What a boon for a fisherman. They can drive straight out of the garage--

--to the nets, and be back before closing time.
