

SOUTHERN RELIABILITY TRIAL

Picture:-

If you are interested in meter-cycling, here are some--  
--'shots' of the Southern Reliability Trials. No. 1 is off,  
and No.4.--

--arrives and is off ! Ladies--

--are competing. There's Miss I.M. Crowe just--

--starting, and she's followed by Miss Marjorie Cottle.

In this event it is not--

--a question of being fast, but of being steady. Now--

--note that Miss Crowe is leading a man round this nasty  
turn--

--with no skid. The lady is not slow,--

--but she's steady. Here they do a double turn, and why  
not ?

After riding up hill, and down--

--dale on roads that don't deserve the name,--

--the end proves that British is best. Well, of course !
