POULTRY SHOW.

Picture. :- Most people are bird fanciers one way or another.

A Wyandotte pigeon is a--

--cheery sort of bird with a naughty little wink.

This, the world's largest poultry show has got--

--more birds under one roof than a busy night--

--club. A white Fantail implores--

--to be photographed in the best position. Just like that !

Goo ! That's another, says a pouter pigeon, all puffed up !

The latest fashion in head-gear for hen-parties.

Very chick ! Makes all other hens fowly jealous. A shot of a silver grey rabbit. She's awfully bucked !

A reasonable exhibit ! Fat turkeys for the Christmas table !

By heck. He must have heard me. Sorry, old cock !
