MINIATURE AIRCRAFT COMPETITION

Picture.

Teaching the young idea ! Competitors prepare their model aeroplanes for the Lancashire--

--Aero Club's Model contest. There they are, all getting wound up for the exciting--

--event. One ingenious youth makes a drill do the work for him !

He should rise high some day ! Another miniature 'plane is complete with pilot and parachute.

One just pushing off !,--

--and making excellent flight, too ! Looks very like the real thing on the screen.

Launching the winning plane from the ground. It flew for over two minutes, and then good-night.

Mr. Kenworthy regained the Wakefield cup from America for a flight of $1\frac{1}{2}$ miles.
