

AIRSHIP AS FLAGSHIP.Picture.:-

The "MACON" is claimed to be the biggest--
--and finest naval airship in the world. She carries--
--her own aeroplane fleet, and a lot of spiteful guns.
For this--
--trip she is the flag ship of the--
--American war-fleet, and has--
--just arrived at 'Friseo to join in the--
--manoeuvres. Admiral David Sellars, the Navy's Commander-
in-Chief--
--is aboard her. Probably for the first--
--time in naval experience, an Admiral takes an aerial view-
--of his ships, and directs them--
--from the skies. A wonderful war machine ! Too
wonderful, maybe !
