Picture.

Hockey enthusiasts gather to see England's Women's Team play--

--the Rest at Old Trafford, Manchester, and the sooner--

--the match gets going, the better. A keen--

--East wind is blowing, and if the player's don't move fast, they will be frozen stiff like--

--most of the spectators. They are--

--moving fast. England is attacking well, and the--

--Rest's goal is in danger, but their defence is good,--

--and no point is scored in--

--the first half. The Rest are playing an excellent game,--

--and so are--

--England. In fact this is very good hockey ! And the--

--well contested match ends in a draw.
