

2040041

SMITHFIELD SHOW.

Picture:- Smithfield is usually a place of gory carcases.  
But this week it's--

--all alive-oh ! The judging of fat cattle from all parts  
of the country foreshadows--

--a Christmas which won't be so merry--

--for these fellows. However, what the eye won't see  
the bullock's heart won't--

--grieve about. This one intends to be fatter yet.

This year's show records an increase of entries.  
Depressing for the vegetarians,--

--but heartening for the 'roast beef of Old England'  
adherents.

In fact His Majesty is the largest exhibitor.  
"Daventry--

--calling. Here are to-day's Fat Stock Prices".  
Switch off, you son of a B.B.C. !
