SEA - BORNE TRAIN.

Picture.:-

The star of this film is a train. The--
--Royal Scot, stripped of her portable fittings by--
--American souvenir hunters has come home again. It sounds --
--impossible to cross the Atlantic by rail locomotive, but
the Royal Scot's train crew--
--of three has done it. The last eight months has--
--been a triumphant tour for them and their charge.

Over eighty towns in the United States have been
visited and--

--at each place the train was welcomed like a
conquering locomotive. Nearly four-million--
--people have admired her and 'pinched', among other
things, five-hundred--
--electric light bulbs - - to light up the American
political outlook, I suppose.

She's now to have a rest for refitting and then--
--back to the old road again. London - - Edinburgh.
Right away ! (Whistle) (Train starts)
