

J. 1800041

NEWS IN BRIEF.

(4). Picture.:-

America's newest war tank - - a torpedo destroyer  
of the land.

The most mobile land machine--

--ever invented. Fully armed, weight only two tons, it can  
move--

--over a ploughed field - - a badly ploughed field - - at  
100--

--miles per hour. Level ground, valleys,--

--or hills, it's all the same to this machine. Any--

--obstruction it meets it will go over--

--or under, or through. Most obliging.
