EX-CROWN PRINCE  
OF GERMANY.

Picture.:- This is a story of the village blacksmith.

A romantic story, without a heroine, but possessing -  
--a Royal Prince as chief character.

It was in this Dutch village--  
--that the Ex-Crown--  
--Prince of Germany lived out his exile--  
--from the Fatherland. During the--  
--War that face meant meat and drink--

--to many caricaturists. The village blacksmith was  
a close friend of the younger Wilhelm, and the Royal  
handshake is warm and sincere.

He was very popular with the--  
--villagers and did not at all live up to the unpleasant  
person--  
--he was pictured to have been during hostilities.

In fact it seemed a case of the nasty ogre  
turned fairy prince.
