EXERCISING ON THE
SANDS.

Picture:-

Freezing cold weather has brought strings of race-horses--

--to Bognor's sands for exercise. The ice-bound earth of their own native heaths and downs is--

--too hard for their sensitive hoofs and hocks. Sand may have the disadvantage of getting into one's--

--picnic sandwiches, but it doesn't freeze, -- at least not in England.

This is Mr. F. Morgan's string. Maybe there's a Derby--

--winner amongst them. "Remus", the National runner, "Osculator", an exciting name,--

--"Mambo" and "Bluffer" all exercise here. So if you like the look of any of--

--them, try your luck, but don't blame me !
