ON THE RUN.

WINTER SPORT THRILLS.
CRESTA RUN OPENED.

The Cresta Run ! Switzerland's winter season really gets going !

And so do the bob-sleighs. Skeletons they call them ! When they crash they ask how many 'b's' there are in - - dash --

--it. Round an 'S' bend. Flying along--

--like a streak of greased lightning. It's a thrill !

Taking a header at fifty miles-per-hour ! Honest people do this best.

They always go straight. The narrow path is the only safe one--

--in this game. He's lost his skeleton. I'll bet he falls filled !

Here's another ! It's easy to guess there's--

--a wet canteen at the end of this run ! A great cure for over-taxed corporations.
