"PONY'S" FOR THE HUNT.

CHILDREN LECTURED BY MASTER.
HUNTING BENEQUETTE EXPLAINED.

-Essex-

Picture:-

Teaching the young idea. Developing the infant--

--John Peels, and the baby Dianas. A school for training youngsters in the manners, habits and customs of the hunting field. And it's the sort of school--

--they just love. They do their very best--

--to be patient while they are told--

--that falling off is bad form, but it is the dogs--

--er - - pardon - - the hounds - - they want, and a jiggly ride--

--on their ponies - - pardon again ! - - their hunters !
And now they're off ! Nearly standing up--

--in their stirrups with excitement. In fact after this ride sitting down may be a sore point.
