

WORLD'S FASTEST GAME.

ENGLAND VERSUS U.S.A.
HONOURS DIVIDED.

-Bayswater-

Picture:- Everybody alert ? The whistle blows and it's 'bully-off'.

Ice-hockey, sport's fastest game. England plays America.

Enthusiasts watch the puck skimming across the--
--ice at lightning speed, and applaud when the--
--terrific shots are stopped by opposing lynx-eyed players.

Oh ! There's the big cage !

The American goal-keeper has put up a magnificent show. He's only 18 years old--

--but he's repulsed volleys--

--of shots and has once been hit full--

--in the face by the puck, but he pluckily refused to give up. England has played--

--her best game to-day, and has drawn with the renowned U.S.A. world--

--champions. England's team was drawn from the Streatham Club and the Grosvenor House Canadians. Bravo !
