

"GOOD SKATES".

PAIR SKATING CHAMPIONS IN ACTION.  
GRACE AND AGILITY ON THE ICE.  
-London-

---

Picture.:- Meet Miss Sadie Cambridge and Mr. Albert Enders, pair skating champions of Great Britain.

Sadie is a girl who can't help being graceful in any position. This exhibition just shows what a--

when  
--girl skater can do, she can trust her partner. This clever pair have been skating together for over eight years, so there's no question--

--of breaking the ice when they meet now. Their names are known in every skating stronghold in the--

--world, and they're now preparing to compete for the world's championship pair--

--skating. Well if there's any-

--couple who can beat the Cambridge-Enders combination, they will have to be pretty good. On this occasion the artistes have given the show for St. Mary's Hospital. A warm hearted gesture for ice-skaters. The--

--great thing required for this work is flexibility and poise. Watch this action! Straight for the camera. The operator's getting cold feet, and maybe that's not all he will get. Oh they have missed him.
