H.M.S. SEVERN.

BRITAIN'S NEWEST SUBMARINE.
SUCCESSFULLY LAUNCHED AT BARROW-IN-FURNESS.

Picture.:-

Mrs. Forbes, wife of Admiral Forbes, the 3rd Sea Lord--

--arrives at Barrow to christen the Navy's newest submersible, His Majesty's submarine "SEVERN".

(EFFECTS).

This is the 162nd submarine--

--which has been launched from the Barrow yards. Another British under-water craft will be launched later, and following that-- three others are being built for delivery to Portugal. Several more commercial vessels are approaching completion. The ship-building industry is looking up, so three hearty cheers, my lads !
