

THE RIGHT THINGS

FOR WINTER SPORTS.
DAME FASHION'S "LAST WORD".

-Paris-

Picture.:- Husbands may now read their programs, or go out--

--and play, while the ladies take a look at the newest winter sports fashions.

That's a nice hat she's nearly got on !

This coat is beige leather, and the next layer is a scarlet wool jersey, and that's as far as--

--we go. As the men have all gone out--

--now, I shall not be misunderstood if I say that some of these models are extremely attractive.

And not outrageously expensive. Ah ! She skis, or, a-la the B.B.C. she skis ! But-

--whatever it is, the lady can do it charmingly.
