S.S. BERTHA PREPARES.  
SCAPA FLOW SEARCH.

-Rosyth-

---

Picture. :-

This small ship is going to have a shot at a big job. The attempt to--

--raise the 13 sunken German warships which lie at the--

--bottom of Scapa Flow will be one of the greatest salvage efforts of modern times.

The diving gear is an important part of the expedition's equipment. Most of the work is to be done in the dark, eerie--

--depths of Davey Jones' locker. The divers' boat is lashed on deck; the huge air compressing gear is stowed and the adventurous -

--gamble is on! Here's hoping they win the drowned 'kitty'.
