NEWS IN BRIEF

(1). Picture:- A seventy-year-old ship that never went to sea--
--is being turned --
--into a dryland wreck. The old 'FAME' used--
--for training boys of the Royal Hospital--
--School at Greenwich--
--is taking the knock. Many present officers of the senior
service--
--slept their first shipboard night here on dryland, with not
a rolling--
--wave, nor a rum ration in sight.

(2). Picture:-
One of nature's wonders ! The Severn bore. Watch
the right-hand side of the picture, and you will see the
bore start boring ! It's a sort of run-away tidal wave
which runs up the river, apparently for no reason at all,
because when it gets there it just rushes back again. It's
all wet.
