(1). Picture. :- After days of fighting in Vienna--
--the defenders of the Karl Marx house surrender. Bayonets--
--probe every possible hiding place with deadly purpose. The--
--pitted walls show the murderous trail of machine guns, and
gaping holes tell the story of destructive artillery.

The Government forces have--
--routed the rebels. Many lives have been taken, sacrificed by
the clashing ideals of humanity.

(2). Picture. :- The Bell Trophy for Angling is the most--
--coveted prize in a keen fishing contest. The rounds--
--are fished out at Filey Brig on a rough and--
--stormy day. The Filey Brig Club has won the bell--
--three years in succession, and are trying--
--to make it a habit. I think those haddocks are cod.

(3). Picture. :- A royal guest from--
--the Far East visits France. The King of Siam, with his--
--Queen, pays a call--
--on a French warship lying off the Cote d'Azur. King
Prajadhipok (that's His--
--Majesty's name) inspects the vessel thoroughly --
--before taking his departure. Siam's ruler will--
--visit England before proceeding to America for--
--an eye operation.
