

UNIVERSITY'S 360 THANNIVERSARY.

LEYDEN STUDENTS CELEBRATE.  
FUN ON THE CANAL.

---

Picture.:)

The noisy roisterers are students of the Dutch--

--University of Leyden. It was founded in 1575, and they have gone back to that date for--

--their costumes. This hullabaloo is to celebrate the University's anniversary. Windows lining the Dutch Canals are--

--made very dirty by eager sticky-fingered--

--kiddies who refuse to mkss the fun.

Admiral Sir Shocking-Fraud, and his--

--fake staff take a salute--

--to which they have not the slightest right. But who cares about that? Many famous--

--scientists and doctors have graduated through Leyden University. The Leyden--

--Jar is one of many classic discoveries by its students.

Usually their team work is good, but just now somebody's rocking the boat.
