(1). Picture.:- Dillinger, America's No.1. Public Enemy has escaped again. Here--

--are some weapons found at his place after he was arrested. Lillian Holley woman sheriff of Indiana--

--who swore the gangster could not break--

--out of her gaol , is very annoyed, really-

--angry, in fact. No wonder. Dillinger spoofed--

--the warders with a fake gun, walked out, commandeered the Lady Sheriff's car--

--and vanished, but he will get full measure, and a bit over, when he's caught.

(2). Picture.:- A rail or road car. A door--

--to door railway line. When it is required--

--to take to the road, pneumatic tyres replace--

--the rail wheels, and a tractor hauls it. One more idea to make the road safe for pantehnicons.

(3). Picture.:-

The Sunny Bahamas receive a --

--visit from Britain's Royal House. Lady Clifford, wife--

--of Sir Bede Clifford, Governor of the Islands entertains the Earl of--

--Athlone, King George's uncle, and his wife Princess--

--Alice, who is here seen chatting with Sir Bede Clifford.
