The famous 'Silver Bullet' again prepares to shoot across space for an attempt--

--on the record. A final touch to the--

--cabin of this £20,000 speed 'bus, and she is--

--towed to the track on Southport sands. Sir Malcolm Campbell's empire record is 217 miles-per-hour.

It is that figure which Jack Field hopes to excel, or--

--equal. (EFFECTS).

147 miles-per-hour was Field's best. He narrowly escaped death when the car hit a bump on the course, nearly bounced him out, and caused--

--a tip in the metal body of the car.
