

WORKLESS MAN'S ACHIEVEMENT.

BUILT HIS OWN HOUSE.
ARCHITECT, BRICKLAYER, PLUMBER, ETC. ETC.

-Harrow Weald-

Picture. 1-

Ronald Gainsky has triumphed over circumstance.
Instead of telling a hard-luck story--

--about being unemployed, he built a house, furnished
it, married a wife, and raised a family.

He made everything himself except the wife. Her
father gave her--

--to him. And this is the house that Ronald--

--built, and these are the pots that Ronald makes. After
being his own--

--bricklayer, carpenter, plumber, gas-fitter, painter,
decorator and cabinet maker,--

--he courageously decided to become an artist in
pottery. Before all this he was unemployed.

Now he has put himself on full time, and--

--is doing well. And for this home made kiln he's
making pots - - of money. Lucky--

--Ronald is a man of parts.
