DISPLAY AT ARMY SCHOOL OF PHYSICAL TRAINING.

Picture. :-

The Aldershot School of Physical Training. The place where the perfect male is developed. These are--

--all young instructors who know parallel and horizontal bars much better than those with polished counters and a blonde waitress. Well, I think so !

Dwarfs and giants. A game which is not so easy as it--

--looks. Admiring spectators don't stint their applause. And--

--this sort of thing brings gasps of wonder from the other fellow's sister. The training--

--embraces every kind--

--of sport from early morning blistered foot-slogging to the delicate art of cut and--

--thrust, carte and tierce. Fine examples of the perfect co-ordination of brain--

--and muscle. Intelligent brawn. Watch this - - over again ! - - Would you ! - - Sorry ! - - This is called 'swallow's flight' - - well named - - most graceful. These men are excellent all-round athletes who are devoting their careers and talents to the service of the King.
