And here are some of America's speed demons off on a flying start to beat all records.

Hair-raising skids are the order of the day. It is--

--what the public pay for, and value must be given. The field is fast, and there's--

--another skid. He's going over -- No! -- Stuck right on the fence.

9 -- They bear charmed lives these racing drivers -- Look at that! -- A complete somersault! -- That looks bad for the driver!

Yet he walks out with arm broken and skull cracked. A tribute to nerve and luck!
