

WOMEN AT THE
WICKET.

START OF THE SEASON.
WOMEN'S CRICKET ASSOCIATION IN ACTION.

-Cobham-

Picture.:-

At Cobham, Surrey, The Women's Cricket Association sends a--
--team to play the Cuckoos. The invasion of the cricket--
--field by women indicates another encroachment--
--on the sacred rights of man. Still, I am pleased to report that--
--the association has ruled against the male type of--
--wool garment for match wear. Miss Marjorie Pollard--
--bowls to Miss Whiteaway, who swipes -- pardon -- hits it for a nice two. Not such a cuckoo as the team's name would have us believe. Miss Pollard--
--bowling again, captains the W.C.A. team--
--and the opposition smacks the ball away for another single. Women's cricket is--
--steadily growing in popularity. Two notable fixtures--
--on the Association's card are England V The Rest at Old Trafford, and England V--
--Australia in Australia, which match may well revive the leg theory--
--with Miss Pollard as a female Larwood.
