NEWS IN BRIEF.

(1). Picture.:- - - So the Circus came to them. Hundreds
of little--
--invalid youngsters in Belle Vue Hospital, New York--
--open out their lungs with laughter at the riotous antics--
--of the circus folk. Many of these kiddies will--
--never run in play again. Many of them never have known--
--the fun of a romp.

No wonder the giants and dwarfs, and all the rest--
--bring them a glad hour.

(3). Picture.:- Here's a real baby car. Just big enough--
--to hold one. Not very matey, but it has its--
--uses. Fits nicely into the office lift and can be garaged
in--
--the bathroom. The baby is going for an airing at the
Empire--
--State Building. It's liable to get overlooked or trodden
on in traffic, but can be easily--
--driven along an ordinary sky-scraper balcony. Dizzy idea,
isn't it ?
