Meanwhile a quartette of republican visitors steam into Leith Docks. The French submarines "AMAZON, -

--'MEDUSE', 'DANAI' and "LA PSYCHE" seek berth in the Edinburgh Dock--

--for a short weekend before paying a party call on Norway, and thereafter returning to their--

--owncountry. The under-water craft is of the latest French naval--

--design, and if reports from this trip are satisfactory, it is expected that others of a similar--

--type will be added to France's naval strength. The trip--

--has improved the crew's English. They have learned to say 'ooh aye !"

--nor-t at all", and to count their change.
