Picture.:-

Mount Pleasant Sorting Office is one of the world's busiest places--

--just now. Oudlams of--

--present from the world and his wife are sorted--

--out for delivery to the addresses written--

--on them, and the old joke about the lost parcels--

--is out of date. They get there now, with hardly an--

--exception. Anyway, post early and avoid disappointing your friends. Like myself they prefer their Christmas cards for Christmas.

Picture.:- At London, the Minister of--

--Transport's activities break out in many places. He cuts the ribbon which officially opens the ribbon tracks for cyclists--

--safety ways running--

--parallel to busy arterial roads.

Mr. Hore Belisha has made these roads safe even for the penny-farthing cyclists, if people will ride them. We--

--also take off our hats.
