

HEROES OF THE SEA.

"USHWORTH" SURVIVORS ARRIVE.

Picture.:- Many people are waiting for the Cunard-White-Star--
--liner 'ASCANIA' to dock. She--
--is carrying an exceptional--
--super cargo. Nine survivors of the steamship 'USHWORTH'--
--which foundered in--
--a mid-Atlantic hurricane are brought ashore--
--by the Ascania's Captain Bisset, whose magnificent--
--seamanship was responsible for their rescue.

The Usworth's Captain Reid, and his surviving crew--
--hung between life and death for many hours.

Seventeen were drowned. The Ascania's rescue boat's
crew accomplished unbelievably heroic work--
--under terrible conditions. The grateful survivors--
--were sorry to leave--
--the saviour ship. An attitude I thoroughly--
--appreciate, being on the spot.

The whole episode calls forth the greatest
admiration for those giant--
--hearts, who "go down to the sea in ships".
