

2-85HW

Picture.:-

The River Tiber in flood. The--
--great Roman water way is always--
--impressive. With this unstemable--
--volume of water rushing under--
--its bridges, it reminds one of ancient--
--Tiberious of turbulent history. Outside the Capitol--
--the River Banks have burst--
--and inundated the countryside. Some houses--
--are roof deep. The occupants, with--
--their horses and cattle flee--
--to the security of higher ground. The pigs don't
actually--
--flee, but they get there just the same.
